

Oxpier Co

ANCHORED IN EXCELLENCE

VISUAL & VERBAL IDENTITY · BRAND GUIDELINES

Anchore

The complete reference for how Oxpier looks, sounds and behaves — the marks, the metal, the type and the single steel-blue accent that carry operational precision for scaling firms.

EDITION 2.0 — JULY 2026

01 Brand Core

POSITIONING

Operational precision for scaling firms. We fix the execution gaps that stall growth for founder-led businesses.

VALUE PROPOSITION

We execute high-stakes business decisions with precision, not theory.

VOICE IN ONE BREATH

Direct, exact, quietly premium. Short declaratives. No hype, no filler — the confidence of a firm that ships.

People

Embedded operators & executive assistants inside the founder's team.

Pipeline

Predictable outbound that turns silence into a booked calendar.

Systems

Automated execution so the operation runs without drift.

02 The Mark

A brushed-metal interlocking ring set with a refined serif wordmark. The finish is always metallic silver, never flat grey. Sanctioned constructions only — never redraw, recolor or re-space them.

PRIMARY LOCKUP — HORIZONTAL

The default for websites, documents and email headers — symbol left, wordmark right, tagline beneath. Use on dark backgrounds wherever possible.

Circular badge — stacked

Social avatars, profile images, stamps and larger favicons.

Symbol only — the mark

App icons, watermarks and tight spaces. Vector, drops on any surface.

Clear space

Keep clear space equal to the diameter of the ring symbol on all sides. Nothing intrudes into that zone.

Minimum size

Horizontal lockup no smaller than **140 px** wide on screen.
Symbol alone no smaller than **24 px**.

Backgrounds

Charcoal and near-black first. On light surfaces use the dark-type version. Never place on busy photography.

APPROVED BACKGROUNDS

03 Color & Texture

A monochrome metallic ground with one restrained accent. **Never more than one steel-blue per surface.**

NEUTRALS — THE GROUND

METALS, ACCENT & TYPE

04 Typography

Two families, no exceptions. **Playfair Display** carries every headline; **Inter** runs all body copy, UI and captions.

06 Voice & Tone

Write the way the brand ships — exact, calm, certain. Cut the adjective if the sentence survives without it.

WE SAY

"We fix the execution gaps that stall growth."

"Booked calls, not busywork."

"Anchored in excellence."

WE AVOID

~~"Synergistic, best-in-class solutions."~~

~~"We're passionate about supercharging your journey!"~~

~~Exclamation marks. +type. Filler.~~
